

You are invited to exhibit at the . . .

2019 “Clifton Corridor” Biomedical Research Equipment and Supplies Exhibit at Emory Medical School and Centers for Disease Control and Prevention

October 7, 2019

Emory Conference Center Hotel
Atlanta, GA

Sponsored by :

The 2019 “Clifton Corridor” Biomedical Research Equipment and Supplies Exhibit

The Technical Sales Association, a nationwide member-led organization, invites you to exhibit at the 2019 Clifton Corridor Biomedical Research Equipment and Supplies Exhibit in the heart of major research institutions. Based on 30 years of sponsoring similar exhibits, this new location is being added as a permanent exhibit on the TSA calendar. This year's exhibit will be held at the exciting location at Emory Conference Center Hotel on Clifton Road. This is an outstanding meeting/exhibit space facility with ample parking an easy access for both the Emory Medical School and CDC Research community. Joining TSA will be several local groups and individual facilities promoting this year's exhibit to the local biomedical research community along the growing Clifton Corridor.

Emory School of Medicine ranks 19th among U.S. schools of medicine in external research funding. Ranked 18th nationally in NIH dollars received, Emory received \$456 million in sponsored research funding awards. The school is best known for its research and treatment in infectious disease, neurosciences, heart disease, cancer, transplantation, orthopaedics, pediatrics, renal disease, ophthalmology, and geriatrics. Research facilities include Whitehead Biomedical Research Building, Rollins Research Center, Woodruff Memorial Research Building, Health Sciences Research Building, Winship Cancer Institute, Yerkes Primate Center and Vaccine Research Center.

The Centers for Disease Control and Prevention works to protect America from health, safety and security threats, both foreign and in the U.S. To accomplish its mission, CDC conducts critical science and research. Whether diseases start at home or abroad, are chronic or acute, curable or preventative, CDC fights disease and supports communities and citizens to do the same. Opening its doors in the summer of 1946, its annual budget was \$10.0 million and only 400 employees. Today, CDC's annual budget is in excess of \$7.0 billion and employees over 12,000 researchers, scientists and physicians.

The 2019 exhibit will feature over 40 regional and national companies presenting to over 200 attendees. Space is limited so we strongly suggest you send in your exhibit application today. If your Company also participates in 2019 Biomedical Research Equipment and Supplies Exhibit at the Georgia Institute on Thursday, October 17 and apply for space by April 15, you will receive a \$100 discount! In today's high paced research environment with new innovations and discoveries happening daily, the 2019 Clifton Corridor Biomedical Exhibit is your most ideal way to present your latest equipment and supplies to this dynamic group of decision makers.

Reserve your space today!

Who Should Exhibit

Companies that provide equipment, supplies and services related to the biomedical research industry, including but not limited to. . .

- AIDS Research Products & Services
- Centrifuges
- Cell culture products and services
- Chromatography equipment & supplies
- Computer software systems - data acquisition/networks
- Cryogenic equipment & systems
- DNA synthesis reagent systems
- Diagnostic products
- Dialysis equipment
- Diluting and dispensing equipment
- Electrochemical detectors
- Electrophoresis apparatus
- Fermentation systems
- Freezers, refrigerators, cold rooms
- General laboratory equipment, supplies & chemicals
- Genetic engineering enzymes & reagents
- Glassware and plasticware
- Homogenizers
- Immunological & biological reagents
- Incubators & ovens
- Metering pumps, gas analyzers & humidity monitors
- Microscopes and microtomy equipment
- Molecular biology products & services
- Multiblock heaters
- Protein & peptide synthesis & analysis systems
- Publications and journals
- Radioactivity detectors
- Shakers

Exposition Facts

Emory Conference Center
1615 Clifton Road
Atlanta, GA 30329

Installation:
Monday, October 7, 2019
8:00 am – 11:00 am

Exposition Hours

Monday, October 7, 2019
11:00 am – 3:00 pm

Complimentary Refreshments available to all exhibitors and attendees during set-up and exhibit hours.

Buffet Lunch:
11:30 am – 2:30 pm

Exhibit schedule is preliminary and subject to change.

Table Top Exhibit: 6'x2.5' Draped Table

Booth Rate

\$800.00 per table
(multiple tables available)

NOTE:
Apply for space at both the Clifton Road Biomedical Research Equipment and Supplies Exhibit and the Georgia Tech Biomedical Exhibit on October 15 before April 15 and receive an automatic \$100 discount (\$50 per show). Apply for your space today!

Booth Rate Includes

- Four Hours of Face to Face Uninterrupted Meeting time with Over 200 Attendees
- 6' x 2.5' Draped Exhibit Table
- Two Chairs
- Booth personnel identification badges
- Campus Wide Publicity
- Product/service listing in official program
- Extensive Catering
- WiFi where available
- Exhibitor Service Manual with operational information
- Parking validation
- Seminar space where available

NOTE:
Space is allocated on a first-come, first-served basis. Applications not accompanied by full payment will not be assigned space

Applications can be submitted online with Visa, MasterCard or Amex. Please visit our website to take advantage of this opportunity.

As an exhibitor, you'll be among the industry's leading names. Here is a sampling of invited exhibitors...

A. Daigger & Co.	ISC Bioexpress
Agilent Technologies	Jackson ImmunoResearch
Appropriate Technical Resources	KPL
Beckman Coulter, Inc.	Labrepro
Bellco	LI-COR Biosciences
Biohit	Lofstrand Labs
BioRad	Lonza
BioTek Instruments, Inc.	Molecular Devices
Charles River Laboratories	New England Biolabs
Covance Research Products	Nikon
Corning, Inc.	Olney Bioscience
CRYO Associates	Perkin Elmer Life Sciences
Dojindo Molecular Technologies	PRO Scientific
Drummond	QIAGEN
EMD Millipore	Quality Calibrations
Embi Tec	Rainin Instruments
Fiber Cell Systems	Sigma Aldrich
Fisher Scientific	StemCell Technologies
GE Healthcare	Thomas Scientific
HyClone	Thermo Scientific
IDT	Unchained Labs
Imgen Technologies	VWR
Inotech Biosystems	Waters Corp.
Invitrogen Corporation	Worthington
